### Projects

**Friendly, contactless payments and assistance for the homeless.**  
Friendly enables fast, cashless donations to those in need, via your phone. Part of a team of four, working on both the front and back end. Overseeing the UI / UX design.  
<http://www.friendlyapp.co.uk/>

### Courses

**Full Stack Web Development Coding Bootcamp, Le Wagon**  
01/2022 – 03/2022 London, UK  
10 week, full time intensive course in London. Covering both backend and frontend software coding approaches and techniques. Working in teams to build fully functional apps.

### Professional Experience

**Design Associate, Isometrix Lighting & Design**  
10/2010 – 12/2021 London, UK  
Managing projects from concept through to completion. Client facing, coordinating with external project teams and leading in house teams. Overseeing up to 20 projects at one time, both of small and large scale in various sectors, including; retail, hospitality, architectural, exterior and residential.

**Assistant Lighting Designer, Maurice Brill Lighting Design**  
11/2007 – 10/2010 London, UK  
Working within a team of designers assisting at various stages of the design process, creating and analysing light calculations, producing renderings for clients, concept brainstorming, drafting and designing lighting layouts and details.

**Industrial Designer, Urbis Lighting Ltd.**  
06/2006 – 12/2006 Basingstoke, UK  
6 month placement, designing street lights and street furniture. Producing and developing concepts for both Urbis and external clients, using hand sketches and 3D modelling software.

### Education

**Southampton Solent University**  
09/2003 – 06/2006 Southampton, UK  
Degree: BA (Hons) Product Design with Marketing (Class 2:1)

**Brockenhurst College**  
09/2000 – 07/2002 Brockenhurst, UK  
'A' Level in Resistant Materials, 'A' Level in Biology, 'AS' Level in I.T
